

Dealer Information Package

TRUCKBOSS is the most advanced Truck Deck System in the market today.

Designed to fit full size pick-up trucks regardless of box length, TRUCKBOSS is made entirely from extruded and anodized aluminum giving it unequalled strength, endurance, and flexibility.

TRUCKBOSS 6 Fits all full size trucks with 5' Bed Sizes

TRUCKBOSS 7 Fits all full size trucks with 6' Bed Sizes

TRUCKBOSS 8 Fits all full size trucks with 8' Bed Sizes

The unique design allows TRUCKBOSS to seal to the rails of the truck box creating a weather tight seal, and when the tailgate is locked, a vault for valuable gear and equipment. Industry exclusive storage options such SMARTBOXX make the space under the deck even more valuable

TRUCKBOSS features industry leading dry and secure under deck storage

With SMARTBOXX under deck storage is easier and more convenient than ever!!

TRUCKBOSS is the most advanced Truck Deck System in the market today.

The capture channels incorporated into the surface and sides of the deck play a key role in adding accessories that are simply not available with any other deck system. Additional mounted accessories include dirt bike chocks, bicycle carriers and numerous lighting options

Just add a carriage bolt to any TRUCKBOSS capture channel to add accessories.

You never have to drill a hole in the deck!!

Capture channels are used to add popular add-on such as carbide kits, deck hooks, and lights.

TRUCKBOSS also exclusively offers winch loading. The 3500lb wired/wireless winch allows users to load and unload in the safest possible manner. The winch makes it possible for users to load snow bikes and personal watercraft using the TRUCKBOSS FLEXXLOADER system.. At the end of the day TRUCKBOSS allows users to safely carry and load snowmobiles, ATV's, Side by Sides, and Personal Watercraft in style!

Exclusive to TRUCKBOSS – Winch Loading is safe, easy and convenient!!

OTHER APPLICATIONS

We are constantly developing new applications for our decks, and in doing so, are opening new and exciting markets. In addition, we have developed new work truck applications (eg. Fire Truck) that have huge untapped market potential.

As a company we are dedicated to providing the highest quality products with exceptional customer service. We do not sell an inexpensive or cheap product, and recognize that there are lower dollar alternatives out there (eg. trailers). However, we feel that we offer a unique alternative to what is out there and the best value in the market...hands down.

WE WANT YOU!

We are looking for dealers who want to work with us to service both existing and new markets.

Our ideal dealer is both dedicated and entrepreneurial.

Our dealer strategy is quality over quantity.

What we are looking for;

- Dealers that hold inventory to meet customer demands. Inventory requirements are reasonable and based on each dealer's unique situation.
- Dealers that offer installation services This is a high margin business and a great way to connect with new customers for other product offerings.
- Ideally dealers are in one of the following businesses; power sports dealer, truck up-fitter, or service, or in a vertical work truck market (fire, forestry, survey)
- Dealers have intentions of marketing the TRUCKBOSS product line to the markets they serve.

WE WANT YOU!

What We Offer

1 Strong product margins. The more you sell the more you make...

WE WANT YOU!

What We Offer

4. Brochures and Sales materials. Custom materials are provided based on volume. In addition, we provide artwork to assist you in your marketing efforts.
5. Integration into our sponsorship program. With these programs we sponsor pro riders from multiple sports. To assist dealers an attempt is made to sponsor 'local pros'.
6. Trade Show support. This can take the form of show specials, selling materials, give aways or a manufactures rep there to help you sell.

**We want to see you succeed as a TRUCKBOSS dealer.
Any support and advice we can give is only a phone
call away.**
